

Shared Measurement Webinar

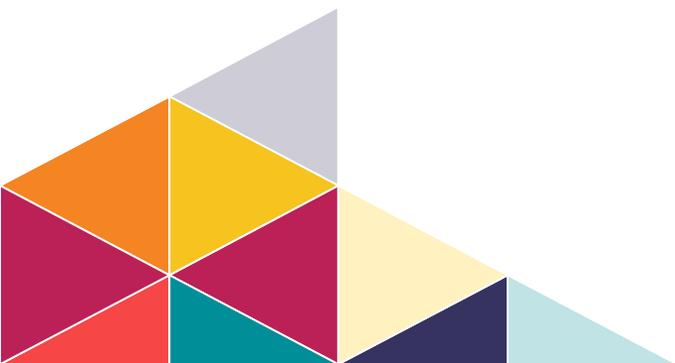

Tuesday, September 10, 2019

Children and Youth
Planning Table
of Waterloo Region

Agenda

- CYPT's Shared Measurement
- Canadian Index of Child and Youth Well-being
- Data, Research and Evaluation Team Recommendation
 - Rationale
 - Considerations
 - What it would look like in practice

Our Shared Measurement Journey

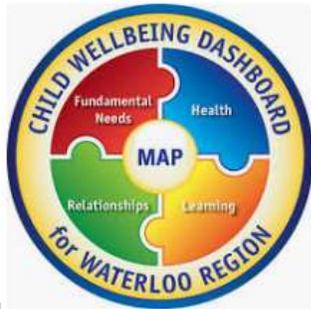

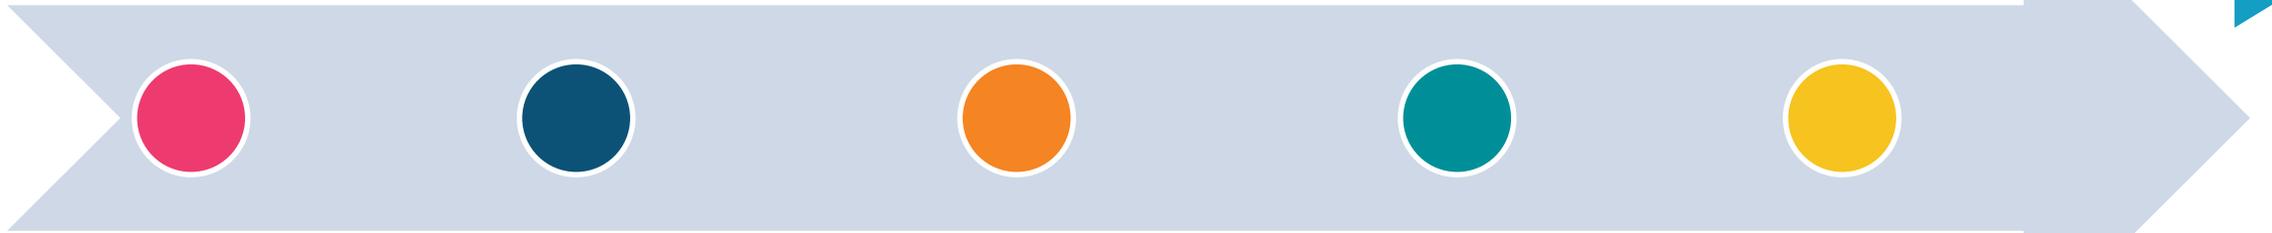

Child Wellbeing Dashboard

Collective Impact: Child & Youth Wellbeing

Smart Waterloo Region

CPT becomes CYPT

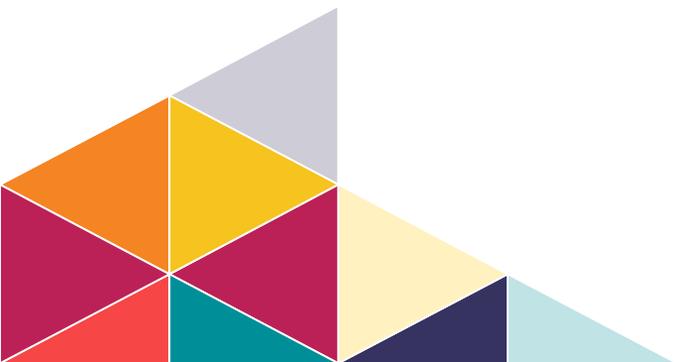

UNICEF Canada

Children and Youth Planning Table of Waterloo Region

Collective Impact & Shared Measurement

Happy, healthy children and youth – today and tomorrow

Feel valued,
heard and
included

Are safe
and supported
by caring adults

Are
physically
healthy

Are
emotionally
healthy

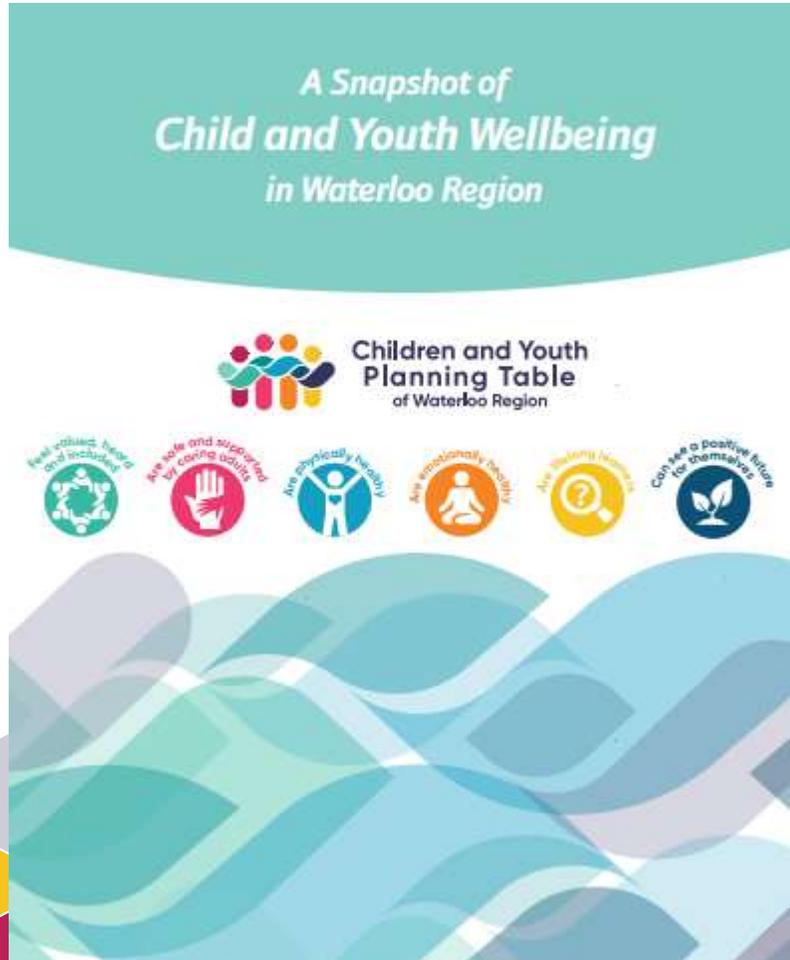

Are
lifelong
learners

Can see a
positive future
for themselves

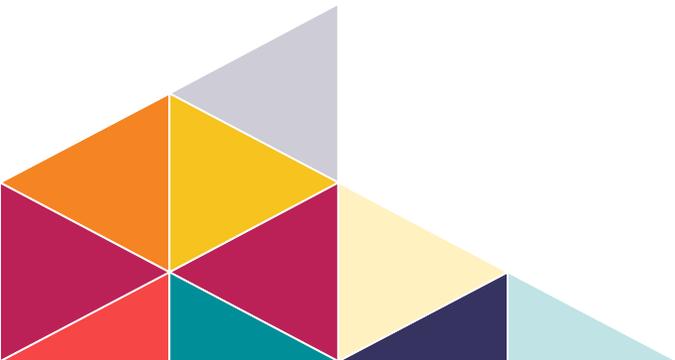

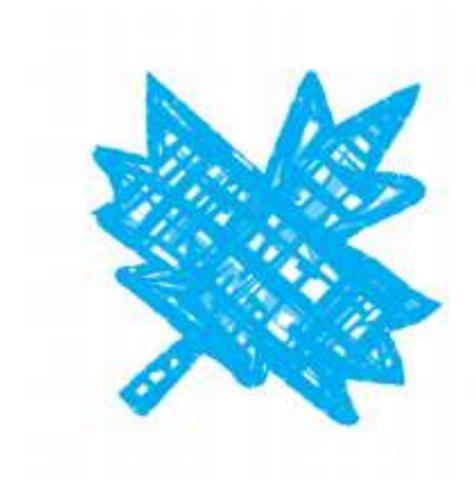

CYPT Shared Goals Indicators

	Early Years (0-11)	Youth (12-18)	Family
Goal 1 		Sense of belonging in local community	Sense of belonging in local community
Goal 2 	Maltreatment of children	Maltreatment of youth	Social cohesion Children living in low-income Quality time with family
Goal 3 	Well Baby Visit participation Healthy Babies, Healthy Children vulnerability Prenatal visits Birth weight	Participation in physical activities Healthy eating Access to health care provider Obesity rates Sexually transmitted infections	Access to health care provider Food security
Goal 4 	Vulnerability on the emotional maturity domain	Self-rated levels of mental health	
Goal 5 	Developmental readiness at Kindergarten Preschool learning opportunities Access to licensed child care Utilization of EarlyON Child and Family Centres Enjoying to read	High school completion Grade 10 literacy Education and employment inactivity	
Goal 6 		Self-harm Suicide mortality Employment Volunteer rates	

UNICEF Canada

- UNICEF Canada have launched the Canadian Index of Child and Youth Well-being
- Framework to:
 - Communicate to Canadians what Canada is like for kids
 - Track progress for the rights and wellbeing
 - Guide action to address the greatest challenges

Canadian Index of Child and Youth Well-being

Are we free to play?

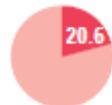

Measure

National Estimate

Indicator

Balancing my activities and responsibilities

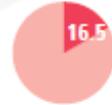

● Average percentage of time spent by 15–17 year-olds on the previous day in leisure activities

Balancing physical activity, sleep and screen time

● Percentage of 5–17 year-olds who meet the moderate-to-vigorous physical activity (MVPA), screen time and sleep recommendations within the Canadian 24-Hour Movement Behaviour Guidelines for Children and Youth

Feeling time pressure

● Percentage of 15–17 year-olds who report high levels of time pressure

Getting around on my own

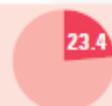

● Percentage of 12–17 year-olds who report walking or cycling to get places or visit friends

Having barriers to participating in activities

● Percentage of 15–17 year-olds who stopped participating in a sport due to a negative experience

Not spending much time with friends

● Percentage of 11–15 year-olds who never or hardly ever meet friends before 8 p.m.

Playing actively or independently

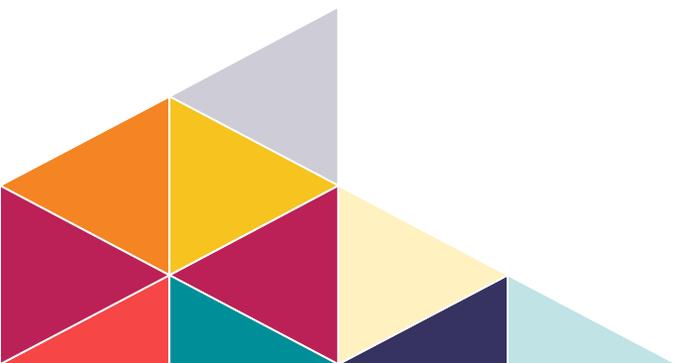

● Percentage of 5–11 year-olds whose parents report them engaging in active play or non-organized/unstructured leisure activities for at least 1.5 hours a day

Data Team Asked to Consider...

Should the Children and Youth Planning Table...

- a) Adopt the 9 Domains of the Canadian Index of Child and Youth Well-being and the 125 indicators as our shared measurement framework
- b) Stick with the 6 Shared Goals for Child and Youth Wellbeing and the 32 indicators as our shared measurement framework
- c) Combine options A and B
- d) None of the above

Data Team Asked to Consider...

Should the Children and Youth Planning Table...

- a) Adopt the 9 Domains of the Canadian Index of Child and Youth Well-being and the 125 indicators as our shared measurement framework
- b) Stick with the 6 Shared Goals for Child and Youth Wellbeing and the 32 indicators as our shared measurement framework
- c) **Combine options A and B**
- d) None of the above

Data Team Recommendation

Alignment between Frameworks

Feel valued,
heard and
included

Are safe
and supported
by caring adults

Are
physically
healthy

Are
emotionally
healthy

Are
lifelong
learners

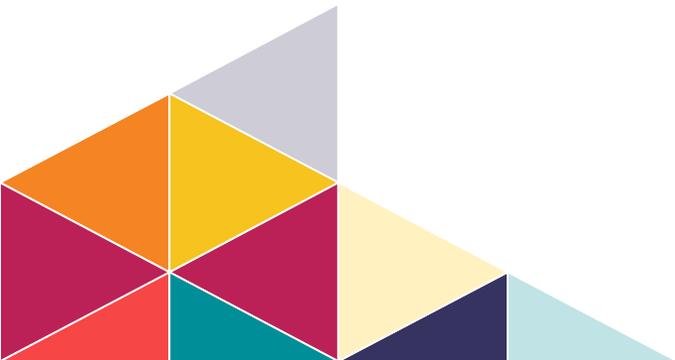

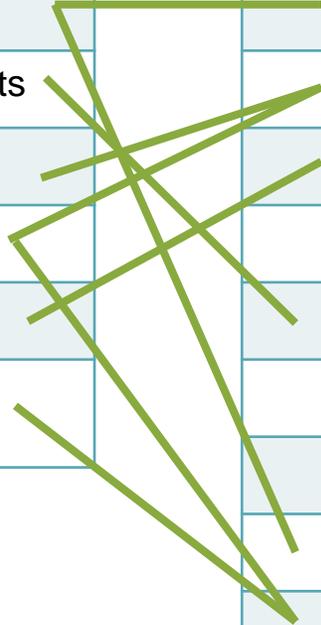

Can see a
positive future
for themselves

Goals & Domains

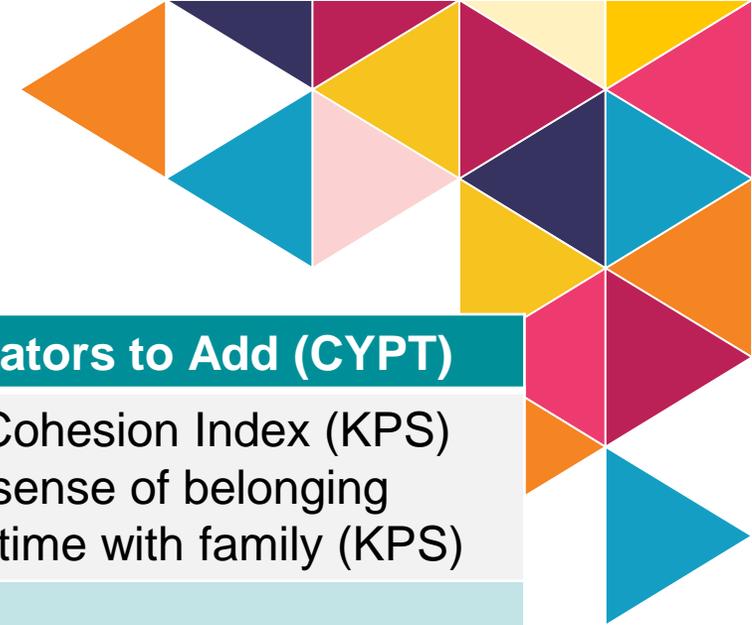

CYPT Shared Goals
Children and youth feel valued, heard and included
Children and youth are safe and supported by caring adults
Children and youth are physically healthy
Children and youth are emotionally healthy
Children and youth are lifelong learners
Children and youth are able to see a positive future for themselves

Canadian Index of Child and Youth Well-being
We belong
We are healthy
We are learning
We are free to play
We are secure
We are protected
We are connected to our environment
We are participating
We are happy and respected

Measures

Domain (UNICEF)	Common Indicators	Indicators to Add (CYPT)
We are healthy	Healthy body weight Suicide Birth weight Access to health care (youth)	STIs Prenatal visits Well Baby Visits Healthy Babies, Healthy Children risk Self-harm Healthy eating Access to health care (families)
We are learning	High school graduation Vulnerability on EDI Grade 10 literacy Volunteering NEET	EarlyON participation Access to ELCC Preschool learning opportunities Youth employment rate Engaged in their own learning

Measures

Domains	Common Indicators	Indicators to Add (CYPT)
We belong	Youth sense of belonging Emotional maturity (EDI)	Social Cohesion Index (KPS) Family sense of belonging Quality time with family (KPS)
We are free to play	Physical activity	
We are secure	Living with low income Food security	
We are protected	Maltreatment of children and youth	
We are happy and respected	Self-rated mental health	
We are connected to our environment		
We are participating		

Rationale

Advantages of the UNICEF Canadian Index of Child and Youth Well-being:

- UNICEF Canada has done considerable research into the well-being of children and youth, as defined by children and youth themselves, as well as the indicators that could be used measure well-being.
- UNICEF Canada has staying power and clout in the long-term
- Teaming up with UNICEF Canada may open up possibilities related to long-term sustainability of CYPT
- Community Child and Youth Well-being Survey

Rationale

Advantages of the combination approach:

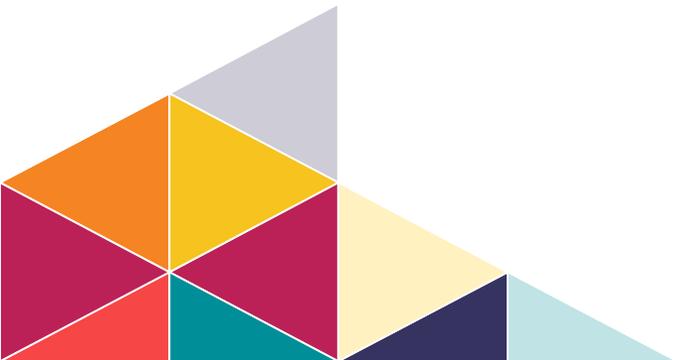

- The Data Team identified considerable overlap between the two measurement frameworks.
- CYPT will keep all the work, time, and effort invested into creating the Shared Goals
- CYPT will be able to continue with historical tracking of the same local indicators over time
- CYPT can tailor the Canadian Index of Child and Youth Well-being to our community's needs
- We can collect data that is usable at a local level

Some additional considerations...

- Adopting, adapting and testing
- Some national indicators cannot be disaggregated at community level
- There may be a better local data source
- There may be an opportunity for custom data requests (at an additional cost)
- Time to collect and report on 125+ vs 32 indicators

Recommendation

The Children and Youth Planning Table move forward with a combination of the Canadian Index of Child and Youth Well-being and the 6 Shared Goals as the shared measurement framework.

Next Steps

If the recommendation is accepted, the Data Team will...

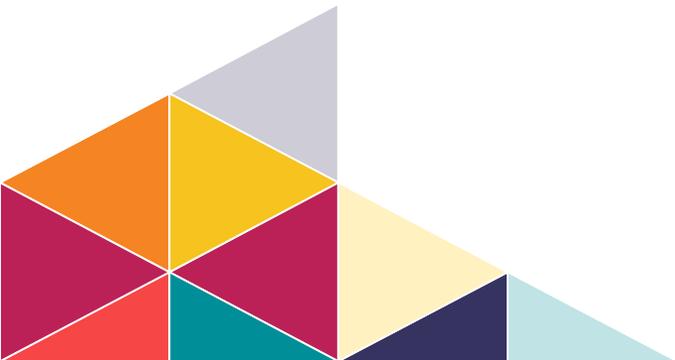

- Develop a work plan outlining the process and share it with the broader CYPT membership
- Collect, analyze and report local data for all indicators included in the CY-Index, progressively over time
 - Start with the indicators from the Shared Goals framework
 - Develop a Dashboard or other reporting template
- Contribute to work on the Community Child and Youth Wellbeing Survey

Endorsement Process

- All Voting Member Organizations will be invited to vote on the recommendation and provide feedback
 - Online Survey will be sent September 12
- Voting/Online Survey will be open for 10 business days (closing September 23)
- Announcement at September 26th meeting and in the October Bulletin

Recommendation

The Children and Youth Planning Table move forward with a combination of the Canadian Index of Child and Youth Well-being and the 6 Shared Goals as the shared measurement framework.
